Galleria Fumagalli inaugurates a special program of virtual events with the video streaming of the performance *INERTE/INERME* by Stefano Sceda

To stay positive and face this period of health emergency caused by the coronavirus, and the consequent closure of cultural activities to the public, Galleria Fumagalli inaugurates a special program of virtual events.

From today to Friday 3 April the full video of the performance *INERTE/INERME* conceived by Stefano Sceda will be shared on streaming. The performance was held on 16 January during the opening of the artist's solo exhibition at the gallery *Nudo, mani in alto! Naked, hands up!*, curated by Angela Madesani.

During the opening reception some performers got undressed and lay naked on the gallery floor. A group of visitors, attracted by this unexpected vision and spontaneously involved, felt the desire to share the experience as an act of freedom.

The video is on view exclusively at this [LINK](#) typing the password:
